Course title: Microbiology and immunology (M2-MB/IM)

Teacher: Vesna S. Milošević, Mira M. Mihajlović Žekić, Gordana M. Bojić, Vera P. Gusanek

Course status: compulsory

ECTS Credits: 10

Condition: Human genetics

Course aim:
To integrate knowledge from fields of microbiology and immunology in order to use them in theory and practice.

Expected outcome of the course:
Theoretical preparation for establishing diagnosis and differential diagnosis. Preparation for practical work, choosing appropriate methods and their interpretation.

Course description
Theoretical education

Practical education: exercises, other forms of education, research related activities

Literature
Compulsory
