INTERNATIONAL SYMPOSIUM FINAL ANNOUNCEMENT

METABOLIC SYNDROME AND NON-ALCOHOLIC FATTY LIVER DISEASE CONSEQUENT TO ENDOCRINE DISORDERS

Applications are accepted until September 6, 2019.

Address: Medical Faculty Novi Sad
Hajduk Veljkova 3

Phone: +381(0) 21 425-509
+381(0) 21 484 3010

E-mail: ckezns@uns.ac.rs

The Symposium is accredited with 10 points for lecturers and 6 points for passive participation

University of Novi Sad
Central University building (Rectorate), Serbia
Dr Zoran Djindjic 1
Head of the Educational Team
Prof. dr Milica Medić Stojanoska

Lecturers
Prof. Dr Marta Korbonits
Queen Mary University of London, London, UK

Prof. Dr Mark Gurnell
Vicedean University of Cambridge, Department of Medicine, Institute of Neuroscience, Cambridge, UK

Prof. Dr Richard Quinton
Consultant & Senior Lecturer in Endocrinology, The School of Biomedical Sciences, University of Newcastle-on-Tyne, Newcastle-upon-Tyne, UK

Prof. Dr Jeremy Tomlinson
Oxford Centre for Diabetes, Endocrinology and Metabolism Radcliffe Department of Medicine University of Oxford, Churchill HospitalOxford, UK

Prof. Dr Panos Delukas
Dean for Life Sciences, Queen Mary University of London, London, UK

Prof. Dr George Dedoussis
Harokopio University, Athens, Greece

Prof. dr Vera Popović Brkić
Full-time retired professor, Faculty of Medicine, University of Belgrade, Serbia

Prof. dr Sandra Pekić Đurđević
Faculty of Medicine, University of Belgrade, Clinic for Endocrinology, Diabetes and Diseases of the Metabolism of the CC of Serbia, Belgrade, Serbia

Prof. dr Milica Medić Stojanoska
Vice Dean for Specializations, Faculty of Medicine, University of Novi Sad, Clinic for Endocrinology, Diabetes and Metabolic Diseases, CC of Vojvodina, Novi Sad, Serbia

Doc. dr Dragana Miljić
Faculty of Medicine, University of Novi Sad, Clinic for Endocrinology, Diabetes and Diseases of the Metabolism of the CC of Serbia, Belgrade, Serbia

Asist. dr Milena Spirovski
Faculty of Medicine, University of Novi Sad, Oncology Institute of Vojvodina, Center for Imaging Diagnostics, Sremska Kamenica, Serbia

Dr William Alazawi MA(Cantab) PhD FRCP
Reader & Consultant in Hepatology, Blizard Institute Barts & The London School of Medicine, UK

| 8.15-8.30 | Opening ceremony  
Welcome words                                             |                                                                                               |
| 8.30-9.00 | Hormones, fatty liver and metabolic syndrome  
Prof. dr Vera Popović Brkić |                                                                                               |
| 9.00-9.05 | Discussion                                                              |                                                                                               |
| 9.05-9.35 | Metabolic syndrome in Cushing's syndrome and what to do about it?  
Prof. Dr Marta Korbonits |                                                                                               |
| 9.35-9.40 | Discussion                                                              |                                                                                               |
| 9.40-10.10 | Thyroid disorders and metabolic syndrome  
Prof. Dr Mark Gurnell |                                                                                               |
| 10.10-10.15 | Discussion                                                              |                                                                                               |
| 10.15-10.45 | Obesity-related anomaly of testosterone  
& gonadotropin levels: hypogonadism or artefact?  
Prof. Dr Richard Quinton |                                                                                               |
| 10.45-10.50 | Discussion                                                              |                                                                                               |
| 10.50-11.20 | GLP-1 and NAFLD  
Prof. Dr Jeremy Tomlinson |                                                                                               |
| 11.20-11.25 | Discussion                                                              |                                                                                               |
| 11.25-11.35 | Coffee break                                                           |                                                                                               |
| 11.35-12.05 | Metabolic complications of acromegaly  
Prof. dr Sandra Pekić Đurđević |                                                                                               |
| 12.05-12.10 | Discussion                                                              |                                                                                               |
| 12.10-12.40 | Metabolic syndrome and NAFLD in Hyperprolactinemia  
Prof. dr Milica Medić Stojanoska |                                                                                               |
| 12.40-12.45 | Discussion                                                              |                                                                                               |
| 12.45-13.15 | Metabolic syndrome and fatty liver in Hypopituitarism  
Doc. dr Dragana Miljić |                                                                                               |
| 13.15-13.20 | Discussion                                                              |                                                                                               |
| 13.20-14.20 | Lunch break                                                            |                                                                                               |
| 14.20-14.50 | The genetics of non-alcoholic fatty liver disease, insights from the MAST4HEALTH study  
Prof. dr Panos Delukas |                                                                                               |
| 14.50-14.55 | Discussion                                                              |                                                                                               |
| 14.55-15.25 | Determining the risk of progressive liver disease in patients with diabetes and endocrine disorders: the needles in the haystack?  
Dr William Alazawi |                                                                                               |
| 15.25-15.30 | Diskusija/ Discussion                                                  |                                                                                               |
| 15.30-16.00 | Non-alcoholic fatty liver disease: Current status of imaging and perspectives of multiparametric magnetic resonance imaging  
Asist. dr Milena Spirovski |                                                                                               |
| 16.00-16.05 | Discussion                                                              |                                                                                               |
| 16.05-16.35 | Mastiha supplement in NAFLD/NASH. Results from the MAST4HEALTH project  
Prof. Dr George Dedoussis |                                                                                               |
| 16.35-16.40 | Discussion                                                              |                                                                                               |
| 16.40-16.50 | Test                                                                   |                                                                                               |
| 16.50-17.00 | Symposium evaluation                                                  |                                                                                               |
| 17.00    | Closing the Symposium                                                   |                                                                                               |
