

Poštovane kolege,

Pozivamo vas na predavanje koje će se održati u **Velikoj sali Dekanata Medicinskog fakulteta u utorak 18. 9. 2018 sa početkom u 12.00 časova:**

**“Nutrition and Pharma – Bridging the gap in science and healthcare”**

**Prof Dr Renger Witkamp**

*Chair in Nutrition and Pharmacology, Division of Human Nutrition Wageningen University, The Netherlands*

Prof Dr Renger Witkamp - Fields of Expertise: Effects of nutrients and drug in inflammation; Cachexia and disease-related anorexia, Pharmacokinetics and food-drug Interactions; Endocannabinoids and related bio-active lipids; Food supplements, Ergogenics in Sports

His research interests include the principles of physiological resilience and adaptive response of the body (gut, muscle and brain) to exercise, ageing or chronic disease, and the role of these factors in determining functional health (immune- and metabolic fitness). This is reflected in studies on diet and exercise to support physical performance and health, and the effects of stress and chronic disease on GI and muscle biology.

His other activities include the scientific directorship of the Wageningen Graduate School VLAG (Food technology, Agro-biotechnology, Nutrition and Health), chair of the advisory board of the “Voeding Leeft” foundation, board member of the European Nutrition Leadership Platform (ENLP) and of the Nutrition Alliance between Wageningen University and the Gelderse Vallei hospital in Ede.
