

<b>Study program:</b> Integrated academic studies in Medicine			
<b>Type and level of the study program:</b> integrated academic studies			
<b>Course title: Medical ethics and sociology(M1-ME/SC)</b>			
<b>Teacher:</b> Artur L. Bjelica, Dušan D. Ristić			
<b>Course status:</b> compulsory			
<b>ECTS Credits: 4</b>			
<b>Condition:</b> -			
<b>Course aim</b> To encourage students to develop and adopt ethical schemes for the future profession. Making the students familiar with the recent trends in sociology and adopting sociological way of thinking.			
<b>Expected outcome of the course:</b> To achieve familiarity with some basic ethical frameworks and understand how these ethical frameworks promote thinking through contemporary questions in medical ethics. To think clearly and carefully through the own positions about important issues in contemporary medical ethics and the compatibility of these positions with broader philosophical commitments (i.e personality, human and personal rights, human flourishing, etc.). To offer better understanding of the problems of mankind, society and history, as well as self-understanding of the profession.
