

Study programme: Doctoral Academic Studies in Biomedical Sciences		
Course title: SCIENTIFIC ACTIVITIES 1		
Teacher: Adviser / mentor		
Course status: compulsory		
ECTS Credits: 5		
Condition: /		
Course aim		
<ul style="list-style-type: none"> - Gaining experience in writing scientific papers. - Gaining insight into the kinds of scientific gatherings. - Gaining experience in presenting scientific results. - Establishing direct scientific communication through the discussion of scientific results. 		
Expected outcome of the course		
<ul style="list-style-type: none"> - Publishing an oral presentation given at a gathering of national or international significance. 		
Course description		
<p>The <i>Scientific Activities 1</i> course includes the presentation of results of a scientific research work at scientific gatherings in the country or abroad, while the candidate has to be the first author of a minimum of one paper.</p> <p>The proof of the realization of required activities is a paper published in the form of a summary, on the basis of which the student acquires a certain number of ECTS points. The candidate is required to obtain a minimum of 0.5 points in the M31-34 and/or M61-64 categories, according to criteria provided by the Rulebook on the Procedure, Evaluation and Quantitative Presentation of Scientific Research Results of Researchers. The results which are to be evaluated are only the results acquired after the enrolment in the doctoral studies.</p> <p>Advisers/mentors enter the required number of ECTS points in the index booklet, while their signature confirms that the conditions have been fulfilled.</p>
